

Session Program

Sep 20 - 25, 2026

10th International symposium on Negative Ions, Beams and Sources - NIBS'26

S2: Chairperson - Jean-Baptiste Lallement, CERN

Prestige Lakeside Resort Nelson, Conference Room

Wed, September 23

10:10 AM

S2: Chairperson - Jean-Baptiste Lallement, CERN

Session | **Location:** Prestige Lakeside Resort Nelson, Conference Room

10:10 - 10:35 AM

Lifetime and Emittance Optimization for High Intensity RF-driven H⁻ Source

Speaker

Weidong Chen

10:35 - 11:00 AM

Design choices, implementation and status of the PIP-II Warm Front End

Speaker

Lionel Prost

11:00 - 11:25 AM

Operational Experience with a Positive / Negative Filament Ion Source

Speaker

Brian Roeder

11:25 - 11:45 AM

Current status of Proton and Neutron irradiation beamlines at the RFT-30 H⁻ Cyclotron Facility

Speaker

Jongchul Lee

11:45 AM - 12:10 PM

Reliable long-life Operations and Record High beam current Demonstration of the H⁻ ion source at SNS

Speaker

Dr Baoxi Han

12:10 PM
